

Corporate Sponsorship Policy

Thesis Gold & Silver Inc.'s (Thesis) commitment to responsible mineral exploration and development includes supporting communities in close proximity to the Lawyers-Ranch Project (Project) through charitable donations, community investments and sponsorships.

Thesis seeks to support community-based programs and events that address the priority needs and interests of local communities. These initiatives may center around education, sports, healthy living, youth development, and/or training programs. We prioritize sponsorship opportunities that allow our organization to actively participate and engage with communities. We seek partnerships where we can be directly involved, fostering a dynamic connection with the communities we support.

As a mineral exploration and development company, Thesis is not yet a revenue-generating company. As such, Thesis seeks to provide support to communities at a level commensurate with the stage of the Project.

In most cases, Thesis prefers to make modest investments in a broad range of community-based programs, events and initiatives each year, rather than providing large donations to any single program.

Applicants seeking a sponsorship from Thesis should complete Thesis' *Corporate Sponsorship Request Form*, stating how a particular request meets the following requirements:

- Supports education, sports, healthy living, youth development and/or training programs,
- Provides direct benefits to residents and communities within close proximity to the Project, and
- Leverages or includes other funding sources to maximize impact.

Thesis will consider all requests against the above criteria.

Please note:

- If applicants require any support or guidance, do not hesitate to reach out with questions to community@thesisgoldsilver.com
- For applications pertaining to community events, we request that submissions must be sent at least one month in advance of the event deadline. This will allow Thesis to respond to requests in a timely manner.
